

Gold & Silver Liquidation Event

DATE _____ TIME _____

SELLING YOUR GOLD AND SILVER IS A POTENTIALLY HAZARDOUS EXPERIENCE, BECAUSE YOU NEVER KNOW IF YOU ARE GETTING THE TOP OFFER FOR YOUR GOLD & SILVER

Why take the chance of being taken advantage of by unscrupulous gold and silver buyers?

We are professional estate liquidators (member American Society of Estate Liquidators) and Certified Personal Property Appraisers members of Certified Appraisers Guild of America. Because we liquidate \$200,000 of gold and silver a year for estates and guardianships, we know who pays more. Attorneys and guardians trust us to get more for their clients and wards.

How it works

1. You are welcome to price out your gold and silver with other metal buyers before the event or after the event and call us once you are sure we can get you the best price. The businesses that advertise they pay more, rarely pay more. And pawn shops and some jewelers buy at very low prices and then sell to the same people we do and pocket the money you should get.
2. When you bring your gold and silver into our event we will weigh and advise you approximately how much you will get for your gold and silver.
3. We will provide you a receipt for your gold and silver.
4. Approximately 7 to 10 days later you will receive a check along with a copy of the buyers paperwork and copy of check issued to us.
5. Our buyers pay us from 10 to 15% more than they do to others because we are high volume liquidators. They pay most of our 15% liquidation commission.
6. For higher end jewelry we either get three offers from jewelry buyers and charge 20% for that service or sell at high end national jewelry auctions where there is a 35% commission.

Approximately \$2,500 in 14K gold

Silver dollars, half dollars, quarters and dimes before 1964 are worth at least 21 times face value.

Tiffany & Co platinum and diamond pin
Sold for an estate for \$7,500
